## COIN OPERATED INTERNET VENDING

People today expect to be able to access the Internet everywhere, on holidays, out shopping even in waiting rooms at dentists, doctors and hospitals.

LoungeTec Internet services are able to offer you the ability to give this service at **NO COST**.

For companies who depend on passing trade and repeat business, such as holiday apartments, hotels, motels, back packer hostels and coffee shops etc. We offer a complete turn key solution.

### ***How does it work?***

We supply a self-contained kiosk that the users simply insert a \$1 (or multiple off) coin to activate the system. Each \$1 coin gives them 10 minutes of internet access.

You can take advantage of the latest wireless technology where wiring may be a problem, and super fast broad band internet access, via ADSL or CABLE where available. Installation of the free standing internet kiosk is quick and easy once a broad band connection is available.

Only Requirements for the installation is that a broad band ADSL or Cable connection availability and electrical power point, within 3 meters from the preferred location.

A LoungeTec representative will call regularly to monitor the internet kiosk including the retrieval of monies collected from the internet kiosk on your site(s).

### ***Why should I have one?***

Apart from being able to offer your clientele the advantage of 24 hour 7 days per week internet access and your percentage of the takings (dependent on the option agreed on) it also acts as a mechanism to attract more clients into your establishment, and can be a powerful aide in keeping your customers on site, which in turn means additional use of your existing services and greater revenue.

We are also able to offer you additional advertising by means of a screen saver so that when the kiosk is not in use your business advertising can be displayed on the kiosk monitor.

If you would like to take advantage of this offer then down load our Installation and agreement brochure and fax to us on (07) 5527 8907 or email [info@loungotec.com](mailto:info@loungotec.com) and one of our consultants will contact you.

Yours faithfully
